- ▶ Recommended for interior use only

Protected by 3M™ Window Film

## Improving aesthetics.

Workspaces and glass walls are at times in need of an upgrade to make the workspace more aesthetically pleasing. Whether this is done with the subtlety of 3M™ Matte Translucent Film or a more bold approach with the 3M™ Blackout Film, you will be pleased with the quality and results.

## Privacy at work.

Many workspaces in large retail stores, offices, banks and hospitals are in need of areas which can provide privacy to protect employees or clients. 3M™ Privacy Films help provide a range of products to meet your needs at a reasonable cost. Whether you are trying to help obscure the view with 3M™ Matte Film or 3M Blackout Film, or you are trying to create a one-way mirror effect with 3M™ Mirror Film along with the correct balance of lighting, additional privacy can be achieved.

## Privacy from unsightly areas.

Sometimes there is nothing you can do with an unsightly storage area or back office, other than block the view. 3M Blackout Film helps to solve this problem by blocking the light and obscuring views while 3M Matte Film helps to obscure the view while still allowing light into the space. Either way, these films can help provide an aesthetic lift to the existing glass and space.

## Increased security.

3M Matte Film and 3M Blackout Film can help to obscure views into storage areas where privacy is desired. With the correct lighting balance, 3M Mirror Films can also be used for security guards to see out without them easily being seen, as these films have a one-way mirror effect. 3M Privacy Films help to provide privacy solutions.
